## BUNCO

It's Bunco time again! It has been so good to get back together with the subdivision's "girl-gang" Bunco group. We have so much fun and enjoy each other's company. Last month we got to welcome a new player to the group, Beth Foraker. Thanks for trying out our group, Beth. We were glad to have the opportunity to visit with you. A big "thank you" goes to Carolyn Abels and Lena Towler for hosting our last Bunco party. We had loads of fun and great food. A big perk of getting together is having the opportunity to try new dishes and sharing the recipes. The big winners for the night were Sun Nicholson, Teresa Olsen and Lena Towler.

If you want a chance to be a big winner and to meet your neighbors then join us at our next Bunco night on Monday, November 8th, 6:30 pm at the home of Janet Simonitsch, 4208 NE Kennesaw Ridge. Janet and Sun are co-hosting. The theme is "Birthday Party". RSVP to Janet at [janet@haskett.org](mailto:janet@haskett.org) or on her home phone 816-795-5077. No experience needed but you do need to take \$5 for the prize fund. See you soon!

## PREPARING YOUR HOME FOR FALL

Have you prepared your home properly for the rigors of fall weather? If not, you're in luck! Check out our Fall Maintenance Checklist to get your home ready to meet the Fall head-on!

**Get an HVAC inspection** – your furnace needs to be in tip-top condition.

**Inspect your home's outer walls, ceiling, windows, doors and floors** – its "envelope" or "shell".

**Change your return filters** on forced air heating systems.

There are few things worse than burst pipes in winter, so **inspect your plumbing!**

**Get your roof checked out.** If you don't take care of your roof, it won't take care of you!

**Check or install weather stripping** at doors, caulk around windows, adding storm windows or window films when applicable.

**Open curtains and blinds** to let sun in through windows to help heat your home and shut them at night to retain heat.

**Seal up foundation and driveway cracks** because during cold weather, moisture can seep into these areas and freeze causing surfaces to crack and split.
