NOTE: Due to the evolving COVID-19 situation, please check your email for important messages and stay informed on both our website: www.srhoa.net and our SRHOA Facebook page.

Savannah Ridge Homeowners Association is currently defending against pending litigation under case number 2016-CV20329.

IRRIGATION SYSTEMS

For those with irrigation systems, it's time to test the backflow prevention valve. This is an annual test required by the City of Lee's Summit. This must be conducted by a licensed technician. Garry Brooks has agreed to a \$30 charge to perform the test and file the required paperwork with the City. If interested, please send an E-mail to the Board at srhoa-board@srhoa.net Otherwise, homeowners are certainly free to make other arrangements.

PET REMINDER

Lee's Summit ordinances regarding pets. Pets must be always restrained or on a leash & pets are not allowed to deposit fecal mater on the property of others and owners are required to immediately clean up any pet waste.

ALERT

We have had two cars parked in their driveway that had the catalytic converter cutoff. Please watch out for your neighbors, lock all doors, keep outdoor lights on, and report any suspicious activity immediately.

NEIGHBORHOOD DIRECTORY

It is time to update the SRHOA directory. We would like to hear from all of you if you would prefer us to print new directories for all homeowners (at least \$800) or if we should print labels for the new homeowners & mail to all residents so each home can update their current directory (much less expensive). Please email your preference to srhoa-board@srhoa.net.

SPRING GARAGE SALE

We are working on finding a date for the Spring/Summer Garage Sale. Call Cindy at 618-660-6619 or goldschmidtca@gmail.com if you have any questions. Use this opportunity to get rid of clutter around the house and make a few bucks too.

steps to EFFICIENT HEATING

When the winters get cold, the heating bill goes up. Small steps can save you up to 20% on your heating bill.

keep the
FIREPLACE

turn your
THERMOSTAT
down

when no one is home,
at night,
or if your home is full of people
people create heat

if your thermostat is turned down
10°F while at work and at night
(16 HOURS) then you can save

14%
on your **HEATING BILL**

WATCH OUT FOR LEAKS

Small gaps between doors or windows add up and create insulation problems. Well made and newer homes prevent this.
